Mosa GE 35 YSX 35 kVA Linz aggregaat generatorset

General characteristics

Brand	Mosa
Subcategory	Standard power unit
Year of construction	2015
Hours displayed	2958
Condition	Used
General state	Good
Fuel	Diesel
CE marking	Yes

Properties

Single weight	960kg
Length	205cm
Width	90cm

Description

MOSA GE 35 YSX Diesel Generator – Powerful and Reliable Power Supply Low Operating Hours! Ready for Immediate Use! Professional Diesel Generator | Robust Construction | Suitable for Various Applications Are you looking for a powerful, reliable, and durable generator for professional use? Then the MOSA GE 35 YSX is an excellent choice! This high-quality diesel generator from the renowned brand MOSA is designed to provide a reliable power supply under a wide range of operating conditions. Thanks to its robust construction and powerful diesel engine, this machine is perfectly suited for intensive use in construction, industry, agriculture, and as an emergency backup power supply. The MOSA GE 35 YSX combines reliability, ease of operation, and excellent performance, making it a valuable addition for any professional user. Technical Specifications - Brand: MOSA - Model: GE 35 YSX - Type: Diesel Generator / Power Generator - Fuel Type: Diesel - Power Rating: Approx. 35 kVA - Cooling System: Water-cooled - Dimensions (L × W × H): 2050 × 900 × 1420 mm - Weight: Approx. 960 kg - Fuel Tank Capacity: 100 litres (standard version) - Application: Professional Power Supply and Emergency Backup Power Please note: Exact technical specifications may vary depending on the year of manufacture and configuration. Reliable Power Supply The MOSA GE 35 YSX has been developed for situations where a stable and reliable electricity supply is essential. Whether you need to power electrical equipment, supply electricity to a construction site, or use it as a temporary emergency backup power source, this generator offers a practical and powerful solution. Thanks to its diesel engine, the machine is suitable for extended operating periods. Its heavy-duty construction ensures that the generator can withstand the daily demands of professional use. Robust and Durable Construction MOSA is well known for manufacturing high-quality power generators designed to perform in demanding working environments. The GE 35 YSX features a solid construction and has been designed with durability and operational reliability in mind. This makes the generator suitable for a wide range of working environments, including construction sites, industrial facilities, and agricultural businesses. Versatile Applications This diesel generator is suitable for various applications, including: - Construction and Infrastructure: Providing electricity for power tools, machinery, and construction site installations. - Industrial Applications: Temporary power supply for industrial machinery and technical installations. - Agriculture: Suitable for agricultural operations and temporary electricity supply in locations without access to the main power grid. - Events: Suitable as a power source for temporary installations, depending on the required electrical load. - Emergency Backup Power: A practical solution during power outages or in locations where additional power capacity is required. - Equipment Rental: A
